CRYSTAL LAMPS

By THOMAS FUCHS

Crystal is magic, one day it is sand pigment and ash. The next day it is a beautiful object. Fine Art Handcrafted Lighting collaborates with renowned American designer, Thomas Fuchs to produce a collection of table lamps comprising clear optic crystal bodies featuring burnished brass and polished and satin nickel.

GUIDE

Finish:

Fine Art handcrafted Lighting is made & finished by hand which means slight variations may occur.

All dimensions & weights are provided as a guide. Where dimensions are provided in inches they are rounded up to the nearest centimeter.

Dimensions:

Height of the table lamp is measured from the bottom most to the top most point including any shade or finial.

Shade dimensions:

Example T.45 x B.30 x H.30(cm)

The first measurement is the top width of the shade, the second measurement is the bottom width of the shade and the last measurement is the height of the shade.

The width of a shade is measured as the shade is orientated on the product. For example, a hexagon shade width is measured corner to corner, while an octagon shade is measured flat to flat.

The height of a shade is measured along the side of a shade as orientated on the product. For example, a hexagon shade is the shortest distance from the top corner to bottom corner. This dimension is not usually vertical but slanted.

Wiring & Certification:

All Fine Art Handcrafted Lighting is wired to 220V (European) or 240V (British) and carry the CE marking.

Fine Art Handcrafted Lighting has UL approval (U.S.) for Halogen, LED and outdoor products, which can be wired for appropriate use worldwide.

SASO certification is available upon request at additional cost.

Fine Art Handcrafted Lighting is supplied for worldwide residential & hospitality use, please contact us if you would like more information.

Bolt down:

The table lamps can be provided with bolt down rods for marine use. Please contact us for further information and a list of suitable models.

Bulbs:

The recommended size and wattage specification is provided to compliment the lamp base and shade. Bulbs are only provided where stated. See individual product listing to identify the recommended bulb and wattage.

Flex:

Table lamps are supplied with a clear or colour co-ordinated flex. All table & floor lamps have an in-line switch. See individual product listing to determine the switch type i.e. on/off or dimmable.

Customisation:

Fine Art Handcrafted Lighting provides an extensive custom program for many of its products and collections. Please contact us for more information.
